

History Curriculum Overview

Curriculum Intent: Our curriculum builds pupils who are successful, resilient and confident who are inquisitive and tolerant by allowing them to engage in the past to develop an understanding of the future. We want our students to leave with a love of History and with key skills that will enable them to be successful and make meaningful contributions.

Curriculum Rationale: The logically sequenced curriculum is taught in a chronological order, presenting a clear narrative over time, which aims to provide students with transferable key skills. There are some thematic units that enable the students to really engage with the second order concepts of change, continuity, similarity and difference.
