Dear Parent/Carer

I am writing to share some important information we have recently received from the local Police, which we believe is crucial for the safety and security of our pupils.

As part of ongoing efforts to ensure the well-being of pupils, both inside and outside of school, the Police have provided guidance on the importance of additional security measures for smartphones. With the increasing reliance on digital communication, it is essential that students take steps to protect their personal information and online safety.

The attached document outlines specific recommendations for enhancing phone security, such as enabling stronger passwords, activating two-factor authentication, and reviewing privacy settings. These actions can help safeguard against potential threats, including cyberbullying, identity theft, and unauthorised access to personal data.

We strongly encourage you to review the information provided with your child and support them in implementing these important security practices. By working together, we can ensure that our pupils remain safe and secure in an increasingly digital world.

Should you have any questions or concerns, please contact your child's Head of House or the sixth form office by calling 01902-558222 or emailing postbox@wednesfieldacademy.co.uk.

Thank you for your continued support.

Yours faithfully

Mr Phillips
Headteacher
