

# YOU SAID, WE DID

## Parent Advisory Board

Parents Said	We Did
You asked for more consistency approach to the setting of homework across subjects and teachers.	We are running staff training at the start of the year in which we will reinforce the expectations to all staff. Leaders will then be monitoring setting and quality of home learning tasks.
Parents like Maths Watch and asked if there was a similar package for other subjects - especially in English.	After researching a number of packages, we have subscribed to GCSE Pod - it is similar to MathsWatch in which it gives pupils information and then tests their knowledge.
A parent shared there was often no feedback from the teacher, whilst they did not expect intensive feedback, some feedback would be useful.	The new GCSE Pod package will give instant feedback to pupils and be easier for staff to track. Leaders will also be sharing simple ideas on how to give simple feedback on homework.
